

CFast Card

ISC3E (MLC)

The ADATA ISC3E industrial-grade CFast cards utilize MLC NAND flash for 3K P/E cycle rating to ensure long-lasting durability. What's more, with BCH ECC error correction the ISC3E can ensure data accuracy and integrity. Customers can also benefit from S.M.A.R.T. technologies for easy management and real-time monitoring of ADATA cards. The ISC3E is ideally suited for applications such as automation, IPC, retail (POS, Kiosks), networking, surveillance and healthcare.

Features

- Compliant with CFast 2.0 specifications
- 3K P/E Cycles – improved endurance and reliability
- BCH ECC error correction and Wear Leveling
- Wide temperature support: -40°C to 85°C
- A+ SLC technology to elevate the product longevity and performance to SLC grade
